

**Kindros is a financial education platform aimed at providing individuals with unbiased financial information and useful tools to plan one's financial future. Topics range from learning the principles of smart saving to understanding the basics of investing.**

### OUR MISSION

To empower individuals to take control of their financial life, leading to more opportunities for learning, growth, independence and security.

### Kindros Community Fellow

Kindros Community Fellows will become leaders in their respective communities, and should, therefore, be individuals who are dedicated and passionate about creating accessibility, equity, and a sense of belonging. They should also exhibit an understanding of the inequities associated with a lack of financial literacy in order to create safe spaces for learning within their community. We believe that any individual who shows this drive, along with the desire to effect change, would contribute to our mission. Fellows do not need any prior financial knowledge nor professional experience as a prerequisite to joining the Kindros Community, in fact, it is part of our mission to empower individuals to take control of their financial life, regardless of their background. So, just be ready to learn and grow with us!

Kindros Community Fellows will have access to on-going professional development support from members of the Kindros team, as well as opportunities to learn the principles of personal finance and tips for mastering financial independence. The overarching goal of this Fellowship is to provide young individuals with opportunities for growth and learning within a forgiving environment for the pursuit of new skills.

### What We're Looking For

- Passionate about addressing financial literacy inequities, and becoming leaders in their communities
- Motivated, is able and willing to take action without a lot of supervision
- Team spirit; ability to collaborate with other team members in a virtual environment

### Roles and Responsibilities

- Available around 4 hours/week throughout the academic year
- Actively engaging with their community by coordinating on-campus or virtual events
- Engage with their community to promote New User Enrollment
- Collaborate with Community Fellows from other schools on engagement events
- Assist in curating content for the Kindros social media platforms
- Report weekly progress about on-going events, and feedback collection
